The Art of Perfumery

BY PHILIP ZEPTER

Dive into a world of mystery and unforgettable sensations.

Invisible yet exceptional, a perfume evokes a presence, refines a pleasure, or flames desire. Each scent is a portrait of the soul, leaving a mark of an unalterable fascination. A refined perfume will mingle with the subtle alchemy of the skin, and reveal your intrinsic personality.

Your perfume quietly speaks more about you than a thousand words.

It is in the mountains of Aix-en-Provence, in this magical land of Provence so rich in wonderful aromas, that we produce our perfumes.

This is where we get our inspiration, practice our craft, and dream.

Rediscovering the unique artistry of ancient perfume masters, and faithfully following the methods passed down from generation to generation, we are once again producing flavors, accords, and sensations that were thought to be lost.

The line of **Absolument Parfumeur** was conceived so that the individual perfumes could be combined by superimposing them on your skin and thus creating your own unique signature scent.

Absolument fragrances are a blend of rare and classic essences that have always been regarded as exquisitely crafted perfumes. The brand skillfully creates a sleek contrast between middle, top, and base notes in its perfumes.
